“Usability Evaluation of a Web-based Application”

Coordinator: Prof. Beatriz Sousa Santos

Procedure

The participants will perform a set of predefined tasks using a web application to explore and visualize data. During the experiment, data will be collected regarding their demographic profile and their comments and difficulties on performing the tasks and using the application, overall.

Duration

The experiment will last between 40 and 60 minutes.

Risks for the participant

There are no risks to the participant.

Benefits for the participant

The participants will have the opportunity to learn how a usability test is designed and performed.

Confidentiality

All the data collected during the experiment will be anonymous and confidential and will only be used in this form for analysis and discussion of the envisaged web-based system.

Voluntary participation

Your participation is completely voluntary. Even if you agree to participate, you can stop, at any time, by stating your will to do so to the observer. In that event, any data collected until then will be discarded.
